### About Me

To work for a progressive organization, to learn different tech practices and give my best to it. To make a way where I can apply my acquired skills and contribute to the growth of the organization, and grow parallel with it.

### Projects

#### Chat App (real - time)

The chat app is a real time chat application in which we can chat with our friends in real time.

#### Enotes App

The enotes app is a app in which we can create files and store data . we can perform on file data like modify, deletion. this app help to store data in file and folders.

#### Clone of rocketair (creative)

I made a clone of a awwards website which is rocketair. in this project i design the front end of this website .

### Activities

- Participate in a state level web hackathon organized by the sheryansh coding school in SIRT Bhopal (m.p.) and selected for top 10 best performance.
- Participate in state level hackathon organized in NMIM indore. this hackathon is based on web technology.

### Interest

I am interested in towards AI. In the modern world AI becoming most important part of this technical world. I am huge interest to know how can machine learn things and it can do wonders.
